

MAJLIS DEALING IN PORK?

With their unjust vendetta on poultry matters rejected by most Muslims, Molvi A.S. Desai, his tabloid mouthpiece, the Majlis, the sycophantic De Deur Jamiat and other vassals, have plunged to new depths of deception in their smear campaign. Cowardly writing under fictitious names, aliases, or those of proxies, it seems that nothing is taboo for this self-proclaimed and appointed ulama of Haqq, and even the pork business is kosher in his nefarious scheme against SANHA's correspondence in this Majlis matter of porcine and swine is attached herewith. We also attach several email headers of some of the other aliases used in correspondence to us in the name of: * Havest Meat Exporters (Pork Processors)

- * Yaqoob Murgiwala
- * Evaton West Muslim Community
- * Concerned Muslim Group
- * Haroon Ebrahim
- * National Independent Consumer Council
- * Zaki Vawda
- * Ansaarul Haqq
- * Carrion Obliterators *
- * Farheen
- * Farhaat

* Mohamed Choonara - This writer has sent us a letter saying that he is no longer associated with the Majlis. (Letter 1/4/2010) & (Letter 8/1/2009) ** This is the email address of "Friends of the Scholars of the Truth" who were exposed as fraudulently using the postal box address of the National Independent Halaal Trust (NIHT) and Witwatersrand Muslim Butchers Association (WMBA). The Majlis has displayed an abject failure:- 1. To provide Moulana Ashraf Ali Thanvi's fatwa on the current stunning method. Merely referring to it or selectively quoting from it is not proper evidence. 2. To produce the affidavits from slaughterers on the flimsy excuse of intimidation as well as the convenient tale that it is being protected. Are they afraid that the testimony of paid troublemakers will not withstand fair questions? 3. To show conclusive evidence on animal cruelty. A generalised aggregation of internet articles of non-muslim advocacy groups with their own vested interests is not conclusive evidence to the specific case. 4. To influence senior Ulama of the country who conducted their own investigation and approval of the Halaal slaughter and procedure. In fact he has now resorted to childish name calling and insults stating that these Ulama have lost their Imaan, are out of the fold of Islam and must re-new their Nikah. A scholar once remarked "If these are the priests, only God can help the congregation". BE ASSURED!

POULTRY CERTIFIED BY SANHA IS HALAAL 0861 786 111

The Secretary
 South African National Halaal Authority

Dear Sir/madam

We are exporters of meat and chicken. We export to Middle Eastern countries as well as to Asian countries.

Middle Eastern countries will purchase only if we have been issued with a halaal certificate by an accepted Halaal Authority of your calibre. We primarily deal in pork. We have been told that you do issue halaal certificates for hygienically processed pork. Our entire pork processing process is open for inspection.

We are prepared to pay royalty of R5 per pig carcass. We hope that you will consider positively our application for a halaal certificate to market our pork products in the Middle East.

A response at your earliest convenience will be esteemed.

Yours faithfully,

Derrick Campher (Managing Director)

Mr. Campher,

If that is indeed your true identity then stop insulting Muslims with this shoddy scheme. You should know better than that.

If you are a Muslim who is trying to score points through this devious and despicable letter, then we ask for Allah's intervention in the protection of the sanctity of Muslims.

Yours sincerely
For South African National Halaal Authority

EBI Lockhat
Public Relations Officer

Mr.E.B.I.Lockhat
Public Relations Officer
South African National Halaal Authority

Dear Mr.Lockhat,

We are puzzled by your reaction. We are at a loss to understand what our 'shoddy scheme' may be. You have totally misunderstood our genuine request.

We showed your letter to a Moslem acquaintance who shed some light on your reaction. According to him there is currently an intense controversy raging in the Moslem community regarding commercially produced broiler chickens being halaal or not halaal. Our acquaintance is of the opinion that perhaps the stress and pressure of this controversy has evinced this reaction from you. Be that as it may, we feel that a reputable organisation of your status should contain its stress disorders and acquit itself with dignity and deportment when dealing with members of the public.

If our request cannot be complied with, you could have simply and with dignity declined. We fail to understand the 'shoddiness' in our request. We have visited Dubai on a business mission and the Moslem gentleman who operates a large meat wholesale trading company was very co-operative and helpful to us for our proposal to export 'halaal' pork. He mentioned that while the proposal of 'halaal' pork is revolutionary, there is scope for its acceptability in view of the tremendous strides of technology. He pointed out that the Koran forbids eating pork on the basis of it being 'filth'. However, science has made great strides since the advent of the Koranic revelation.

Australia is particularly advanced in pork technology. Science has succeeded to isolate and eradicate from the all bacteria responsible for pig diseases. Genetic breeding processes, hygienic farming, and other methods of modern technology have totally eliminated the 'filth' dimension from the pig.

It is based on this scientific achievement which has eliminated the primary cause for the prohibition of pork that has inclined us to approach you for a halaal certificate. We had approached two other Moslem halaal authorities as well. The Cape Town based Judicial Council has not responded. The Halaal Authority which is certifying Karan Beef products has referred us to your esteemed organisation. We wish to draw your attention to Karan Beef who is also a non-Moslem concern. We believe that if Karan Beef in spite of being non-Moslem could be certified halaal, there should be no insurmountable obstacle to grant us a halaal certificate to market absolutely hygienic pork to Middle Eastern countries, especially Dubai and Turkey whom we are told are very highly westernized and progressive Moslem states.

We once again request that you consider our request. You are most welcome to inspect our premises and records. Please do not imagine that our piggeries are like the usual pigsty which presents a picture of dirt and filth. In fact, our piggeries are more hygienic than the chicken processing plants which Moslem organisations certify halaal. We are confident that if you make a personal inspection of our piggeries, you will be more than impressed. We could also negotiate a better royalty.

The prospects for huge profits in a nascent 'halaal' pork trade are immense. Hitherto, as far as we are aware, there is no 'halaal' pork enterprise. As a first mover, we could capture the entire Middle Eastern market. Kindly consider our request seriously and favourably.

A response at your earliest convenience will be esteemed.

I will be leaving on a business trip to the Middle East and China soon. But Ms Carmen Williams, our PRO, will be available to consult with you.

Yours faithfully,

Derrick Camphor
